COMPANY

PROFILE

www.thygesenapparel.com

FROM DENMARK
SINCE 1931

Our Story

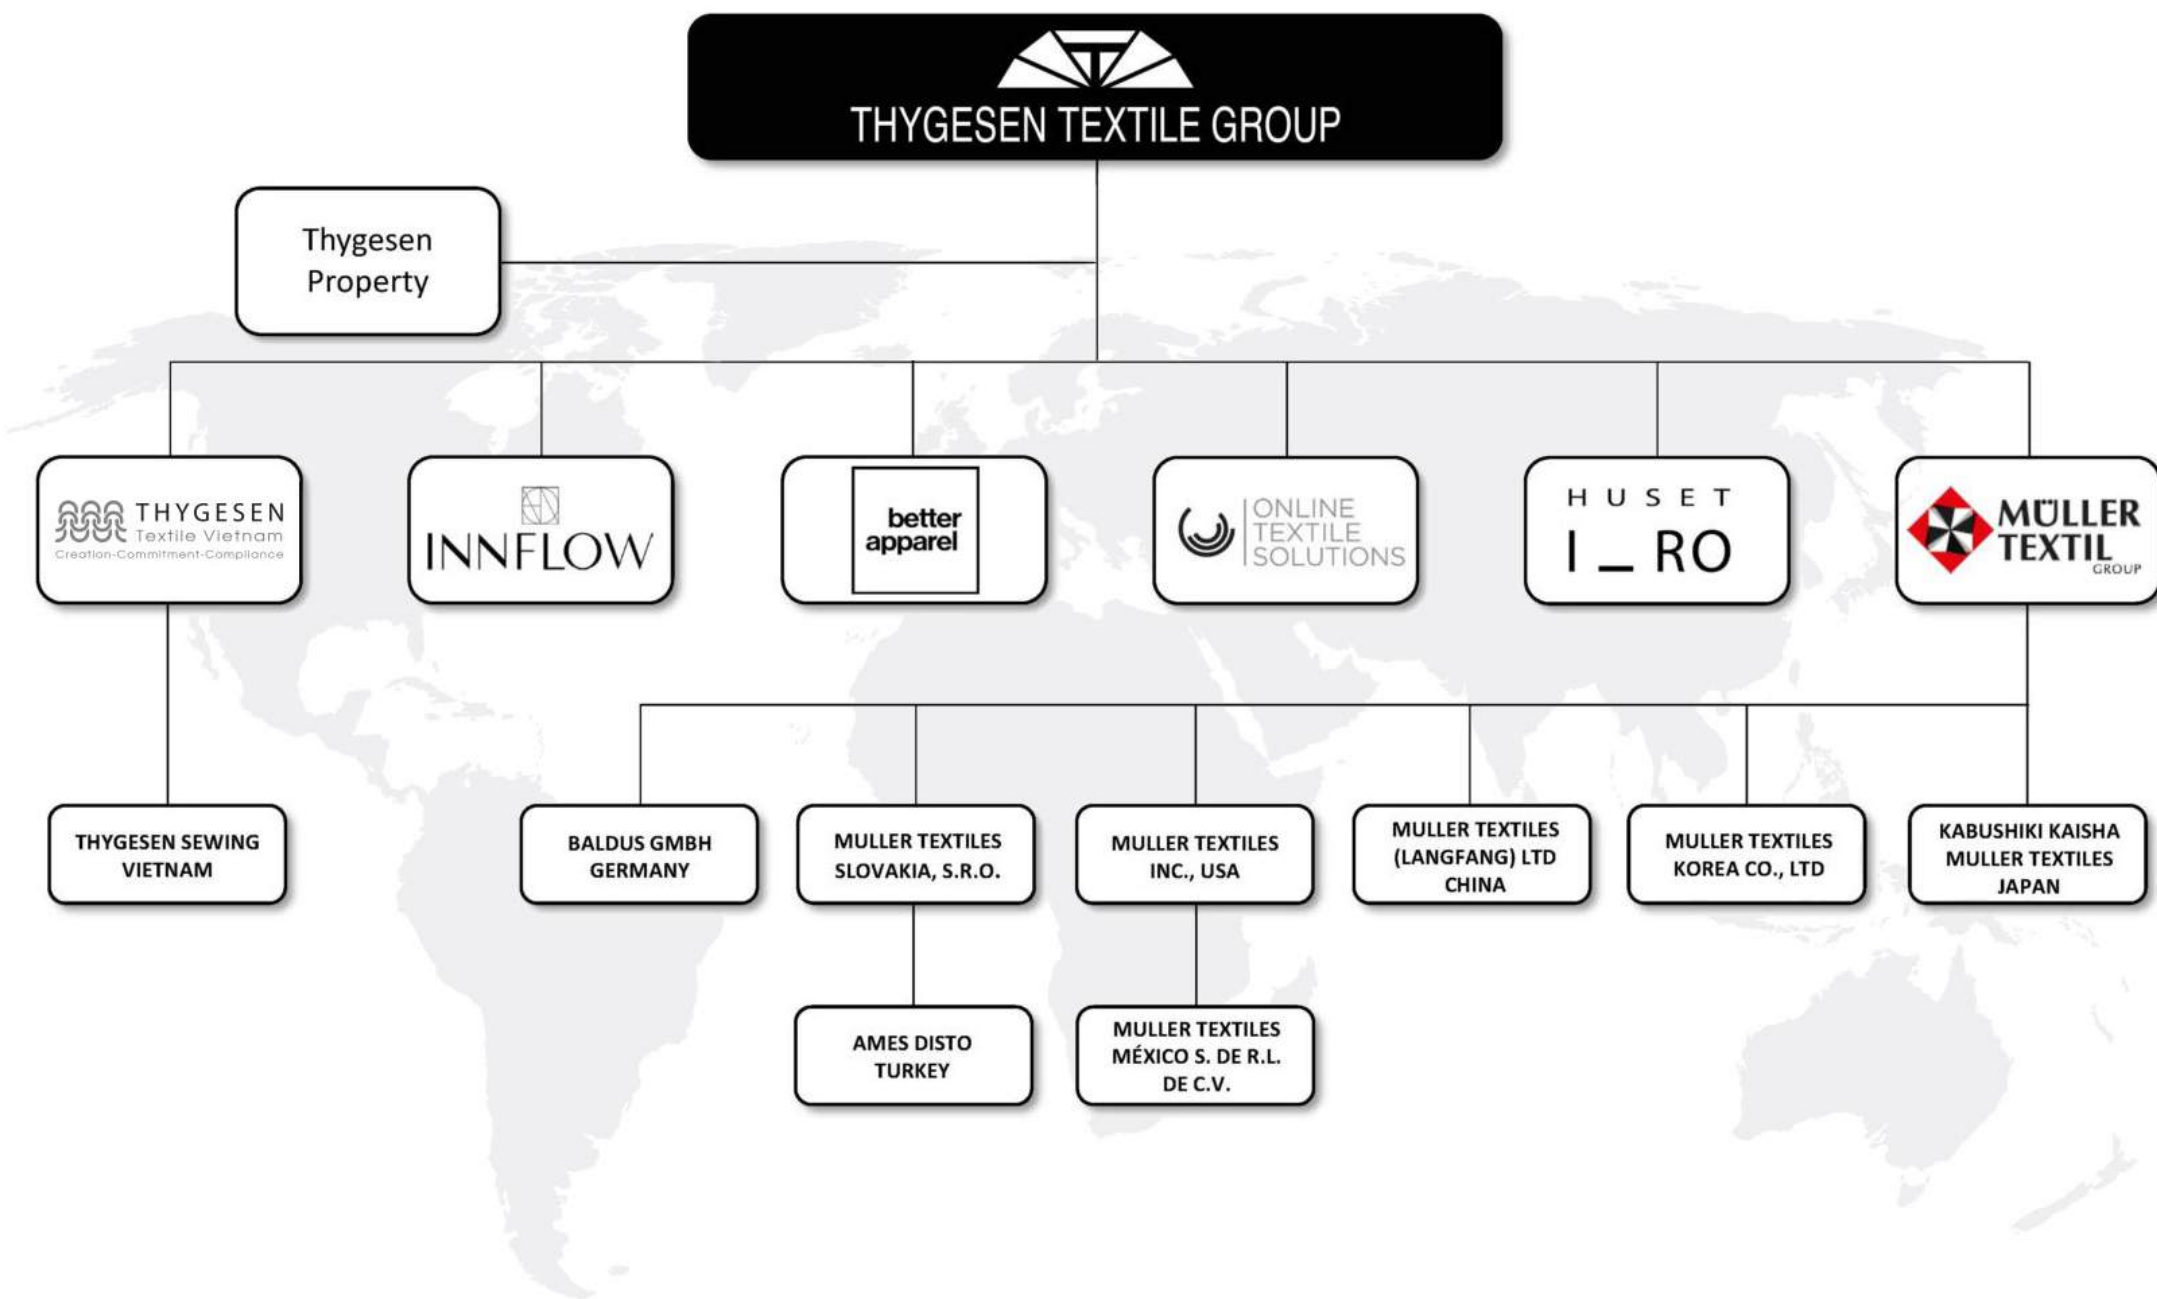

In 1931, Carla Søren Thygesen began a journey that would link the name **Thygesen Textile Group (TTG)** with quality in designing, manufacturing, and selling textile products.

The journey started from a 90m² room production facility with only two knitting machines in Ikast, Denmark. For nearly a century, a combination of hard work and expertise has made us one of the leading textile manufacturers in the world.

Now in its third generation, this family-run business is continuing to build on core values of **Togetherness, Innovation, Honesty, Decency, Trust, and Sustainability.**

Group Structure

*“We've gone from two knitting machines to 1400 employees,
from agriculture to an international textile group”*

TTG now consists of six international subsidiaries, all involved in the textile industry.

Thygesen Textile Vietnam: Specialized in developing innovative textile solutions for fashion brands, from knitting to ready-made garments. The company mainly delivers products to Japan, Europe, the USA, and Australia.

www.thygesenapparel.com

Innflow: Specialized in designing and developing stockings, underwear, accessories, and functional apparel for active everyday lives. www.innflow.dk

Müller Textil GmbH: The giant German company specializes in manufacturing spacer fabrics for the automotive industry. www.mullertextiles.com

Online Textile Solutions: Delivering “online-only” brands and concepts worldwide.

HUSET I _RO: A new well-being house in Ikast, opening in August 2022.

Better Apparel: The high-quality private label producer of women's clothing in a wide range of categories.

Thygesen Textile Vietnam (TTV)

Thygesen Textile Vietnam is proud to be part of TTG. The company, formerly known as Thygesen Fabrics Vietnam Company Ltd., was established in September 2004 and based in Vinh Tuy Industrial Zone, Hanoi Capital; then relocated to Hung Yen Province on 10th August 2009, and renamed as today.

To enhance our capacity, we have invested in a new garment sewing factory named **Thygesen Sewing Vietnam (TSV)** in July 2016. Its estimated annual capacity is 10,000,000 garments.

Learned from over **90 years of experience**, we've gained a reputation in **OEM/ODM manufacturing**. Our ambition is to create innovative SOLUTIONS for all your brand's needs.

Company type: 100% Foreign-Owned Company.

Headquarters: 9th Floor, Vinafor Building, 127 Lo Duc Street, Hai Ba Trung District, Hanoi, Vietnam.

Thygesen Sewing Vietnam

Our factory is equipped with automatic machines, operating under the **LEAN** manufacturing system. Our quality management system complies with **ISO 9001:2015**.

Moreover, we obtained prestigious certificates such as **SA8000** and **WRAP**. Our products follow strict requirements from international standards like **OEKO-Tex**, **GRS**, **GOTS**, **OCS**, **FSC**, etc. In 2022, we also joined **Better Work**, a comprehensive programme aiming to improve working conditions for workers in apparel businesses.

Our Products

We are proud to be one of a few textile manufacturers in Vietnam specializing in **OEM, FOB production**, transforming your unique ideas into reality with **full customization options** such as fabric sourcing/development, custom dyeing, printing, embroidery, labeling, hang tag and packaging.

With a keen focus on **both woven and knit apparels in premium quality**, our versatility spans the spectrum from sporty activewear to chic fashion wear and comfortable underwear. From staying updated on the latest trends to optimizing production processes, we're committed to adding value at every stage.

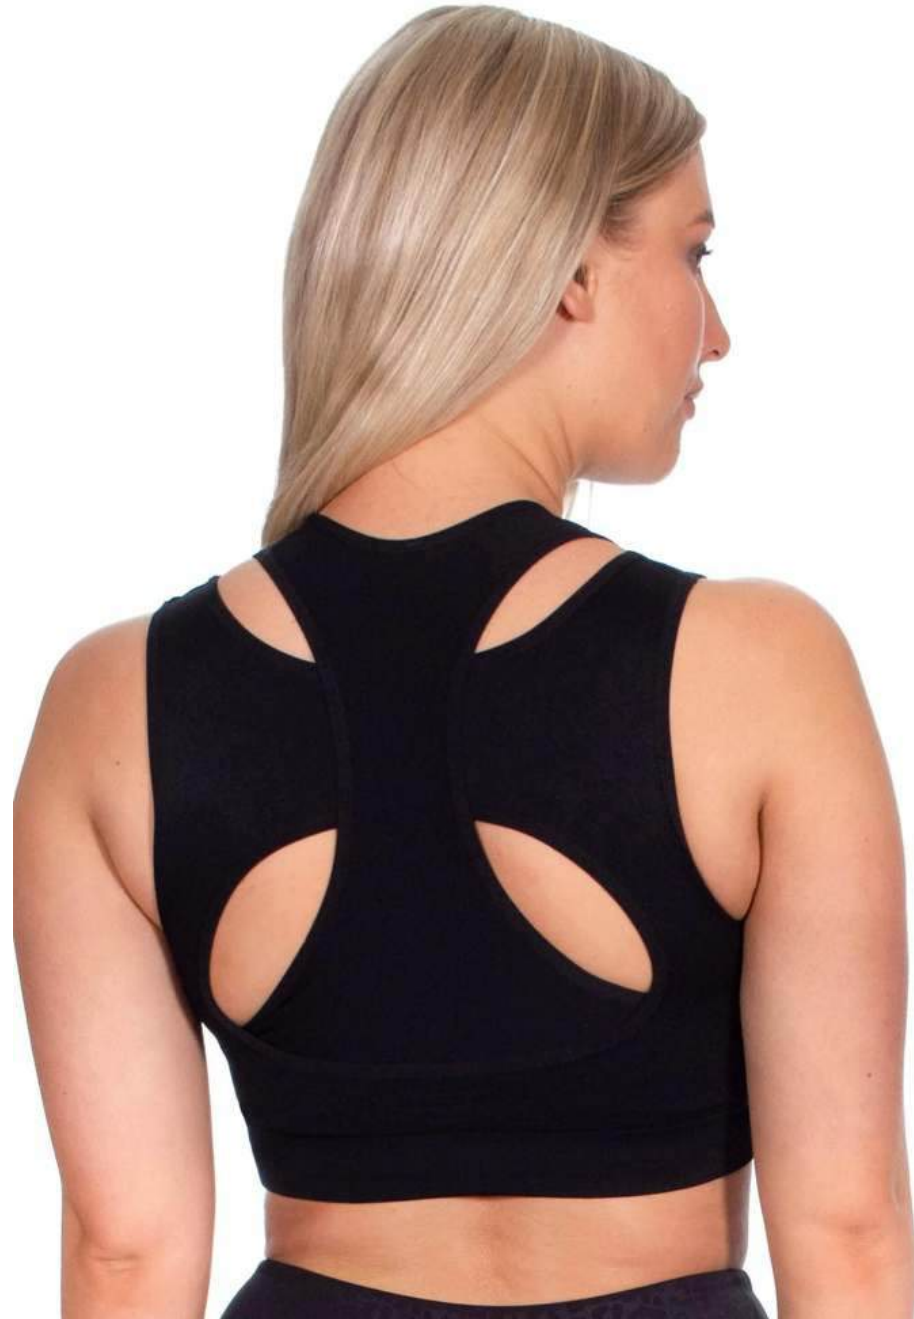

** The products are available as FSC certified only on request.*

Active — Wear

Towards the innovation and expansion of product range and qualities, Thygesen Vietnam sportswear marked its debut in 2014. Our continual research and development of new technology push advancements in fabric performance and garment construction to provide high-functionality, breathability, and comfort for all active items from base layer of leggings, sports bras, t-shirts, polo shirts, and hoodies to light outerwear in all seasons.

Seamless Line

In recent years, seamless garments have gained more attention in the textile industry for their smoothness and comfort. Our supply chain with high-performance machines can produce 170,000-250,000 pcs/month.

Our garment products are OEKO-TEX® certified according to STANDARD 100, i.e. they contain no toxic substances harmful to the skin and humans in general.

Casual & Fashion wear

For an essential product line like Casual & Fashion wear, Thygesen offers various styles, from the very basic to the most trendy, all up to your requirements. We use natural and eco-friendly materials such as 100% Cotton, Cotton/ Spandex, Bamboo Viscose/ Spandex to produce comfortable and sustainable clothes.

Underwear

Advanced materials paired with top-tier quality assurance maintain Thygesen's excellence in the Underwear product line. Our years of experience have given us extensive knowledge of fabrics, techniques, and design, allowing us to produce underwear that is breathable, absorbent, antibacterial, quick-drying, odorless, and stretchy while remaining extraordinarily soft and smooth.

Kidswear

Thygesen is committed to premium quality and highly functional wear to offer the safest and most comfortable children's clothing. We can provide a variety of specialty fabrics and kids' clothing types that are OEKO-TEX 100 Class I certified.

Workwear/ Uniform

Our functional workwear is made of high-quality fabric that can withstand industrial washing and features technologies such as Coolmax/ Cooldry, to keep the body constantly at operating temperature. The clothing adapts to temperature fluctuations and different weather conditions, absorbing the sweat and maintaining perfect daily workwear stability.

** The products are available as FSC certified only on request.*

Accessories

Thygesen also produces high-quality textile accessories, including blankets, socks, tote bag, and more. Leveraging advanced manufacturing technologies and sustainable materials, we create products known for durability, comfort, and design appeal.
